

# Abhishek Tomar

Frontend Software Developer

Javascript | React Js | Typescript | Next Js

Phone: +(91)-9718379317 | Email: [imabhishek111@gmail.com](mailto:imabhishek111@gmail.com)

LinkedIn: [abhishektomar213](#) | Github: [AbhishekTomr](#) | Delhi, India

## Summary

Frontend Developer with 6+ years of experience building scalable web applications using React, TypeScript, and Next.js. Skilled in UI/UX implementation, accessibility, and performance optimization. Passionate about solving real-world problems with clean, maintainable code.

## Skills

**Frontend:** HTML5, CSS3, JavaScript (ES6+), Typescript, React.js, Next.js, Redux Toolkit, React Router

**Backend:** Node.js, Express.js

**Testing:** Jest, React Testing Library

**Tools & Version Control:** Git, Chrome Extensions, Webpack

**Other:** Accessibility (WCAG, ARIA), SCSS, Bootstrap, Material UI, Ag-grid

## Work Experience

**Bolster AI** | Frontend Software Engineer

Delhi | June 2023 - Present

- Implemented optimized UI solutions for Bolster products, improving usability and aligning with evolving product requirements.
- Built a Chrome extension (ICEMAN) to automate SOC team's URL analysis, reducing process time from **1 min to 10 sec (83% improvement)**. Tech: Manifest V3, React, Redux.
- Collaborated cross-functionally** with product, design, DevOps, and QA teams to ensure efficient, bug-free code deployments.
- Developed and deployed **Typosquat Module**, enabling automated domain variations and driving an increase of **13K+ active users**.
- Led a small team of frontend developers**, guiding them through code reviews, best practices like **writing unit tests using RTL and Jest** and maintaining code coverage, and feature delivery to ensure high-quality output.

**Tata Consultancy Services** | Frontend Developer

Bengaluru | June 2019 - June 2022

- Delivered UI/UX enhancements for Microsoft in-house applications, resolving critical usability issues and improving customer satisfaction.
- Developed and integrated new UI components into enterprise applications based on client requirements, ensuring seamless functionality.
- Making the applications compliant as per Microsoft accessibility standards. SME (Subject Matter Expert), responsible for managing team and grooming team members as per working standards.

## Projects

**Street and Spices** - A Food Ordering App | <https://abhishektomr.github.io/streets-and-spices/>

- Built a React-based food ordering app with real-time cart updates and responsive UI.
- Technology used - HTML, CSS3, React Js, Context API.

### Expense Manager | <https://abhishektomr.github.io/money-tracker/>

- Developed a responsive app to track daily expenses with interactive charts.
- Technology used - HTML5,CSS,JavaScript, ReactJs.

### Blogger - A Blogging Application

- Built a full-stack blogging platform for CRUD operations on posts.
- Implemented Features like user authentication using jwt and admin dashboard.
- Technology used: React, Node.js, MongoDB.
