Summary

Frontend Developer with 7+ years of experience building scalable web applications using React, TypeScript, and Next.js. Skilled in UI/UX implementation, accessibility, and performance optimization. Passionate about solving real-world problems with clean, maintainable code.

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, React Router

Backend: Node.js, Express.js, REST APIs

Testing: Jest, React Testing Library

Tools & Version Control: Git, Chrome Extensions, Webpack, CI/CD, Agile/Scrum

Architecture & UI: Responsive Design, Component-Based Architecture, State Management

Other: Accessibility (WCAG, ARIA), SCSS, Bootstrap, Material UI, Ag-Grid

Work Experience

Sprinklr India Pvt. Ltd. | Sr. Software Engineer Gurgaon | Feb 2026 – Present

- Developed and integrated UI features for the Sprinklr Entity Studio module, translating product requirements into scalable frontend solutions.
- Implemented pricing-tier and entitlement modules to dynamically feature control and module visibility based on user subscription plans.
- Built a usage and consumption dashboard that provides users with visibility into plan usage and associated statistics.
- Implemented data-masking and access-control mechanisms to prevent unauthorized users from viewing sensitive information.
- Maintained and improved existing modules through bug fixes and feature enhancements, collaborating closely with QA and product teams.

Bolster AI | Frontend Software Engineer Delhi | June 2022 – Feb 2026

- Implemented optimized UI solutions for Bolster products, improving usability and aligning with evolving product requirements.
- Built a Chrome extension (ICEMAN) to automate SOC teams' URL analysis, reducing process time from 1 minute to 10 seconds (83% improvement). Tech: Manifest V3, React, Redux.
- Collaborated cross-functionally with product, design, DevOps, and QA teams to ensure efficient, bug-free code deployments.
- Developed and deployed the Typosquat Module, enabling automated domain variations and driving an increase of 13K+ active users.
- Led a team of frontend developers through code reviews, unit testing with RTL and Jest, code-coverage practices, and feature delivery.

Tata Consultancy Services | Frontend Developer Bengaluru | June 2019 – June 2022

- Delivered UI/UX enhancements for Microsoft in-house applications, resolving critical usability issues and improving customer satisfaction.
- Developed and integrated reusable UI components into enterprise applications based on client requirements, using REST APIs and component-based architecture.
- Improved application compliance with Microsoft accessibility standards. Served as a Subject Matter Expert, managing and grooming team members.

Projects

Street and Spices – A Food Ordering App

- Built a React-based food ordering app with real-time cart updates and responsive UI. Technology: HTML, CSS3, React.js, Context API. Link: https://abhishektomr.github.io/streets-and-spices/

Expense Manager

- Built a full-stack expense management application for creating, tracking, and managing budgets and expenses. Technology: React.js, Next.js, Tailwind CSS, PostgreSQL, Node.js, Clerk, Gemini. Link: https://expense-tracker-phi-coral-84.vercel.app/

Blogger – A Blogging Application

- Built a full-stack blogging platform with CRUD operations, JWT-based authentication, and an admin dashboard. Technology: React, Node.js, MongoDB.

Education

SRM Institute of Science and Technology July 2015 – May 2019 Bachelor of Technology | Computer Science | 75.4%
